Distribution of Materials by Students (Use of Students)

Printed materials may be distributed to parents by students as an inexpensive means of mass communications. At the same time this procedure can prove objectionable to parents and the school district if overdone.

To provide the most effective use of this technique without exploitation of staff or students, the Superintendent or his/her designee may approve such distribution providing:

1. The materials relate to the school, community, local recreational or civic activities.
2. The materials do not relate to any religious belief or activity, or promote private gain, or political position.
3. The materials do not promote any political party or candidate.

All requests from groups or individuals to have students distribute materials to people in the community, with the exception of requests from school-connected organizations like parent-teacher organizations or Board appointed citizens' ad hoc advisory committees, will be referred to the office of the Superintendent to determine whether the requests comply with overall school purposes and policy.

Use of Students

The Board prohibits the use of students during normal school hours in activities which are not part of the normal educational and planned curriculum process. Permission for use of students in activities of a non-educational nature must be obtained from the Superintendent or his/her designee who will ensure that the student's rights in terms of voluntary activities are maintained and that students are not exploited either knowingly or unknowingly.

The Superintendent or his/her designee shall interpret this policy strictly. In case of differences of decision, the decision of the Superintendent will be final and may be made when, in their judgment, the best interests of the students will be served. In case of differences of opinion between them the decisions of the Superintendent will be final.
